

PRODUKTINFORMATION

XTK6 EXACT

TOP LINE ●●●

- Lifetime
- Cutting ability for solid material
- Cutting ability for thin-walled material

Shape 42 

- The world's thinnest freehand cutting disc
- Exceptional precision and virtually burr-free
- Minimal thermal stress, resulting in zero blueing

Even less burr formation and even less thermal stress – leading to reduced discoloration. The XTK6 EXACT – the thinnest disc impresses with its ultra-low-noise operation. Thanks to the exceptionally precise, clean and almost burr-free cut, virtually no follow-up work is required. Although just 0.6 mm thick, this slim disc easily cuts very hard materials such as spring steel, stainless steel sheet, etc. Plenty of power in a small form factor: the narrow cut means virtually no contact pressure is required – making work easier and less tiring.

 Due to its low energy consumption, the XTK6 is especially suited for use with battery-powered machines
