Shape 27 

- High stock removal performance
- Additional fabric flange from 180 mm for high-frequency and air grinders
- Safe thanks to three full-face fabric layers

High-performance stainless steel rough grinding disc with ceramic abrasive grain. Also performs very well on steel and cast iron.

RS480 pipeline discs are manufactured in 4 mm thickness without a top layer in order to achieve the best circumferential grinding performance on root seams with its self-sharpening ceramic grains.
