|             |                                           |
|-------------|-------------------------------------------|
| Onderlaag   | J-flex weefsel, katoen, flexibel en zacht |
| Binding     | Kunsthars                                 |
| Korrelsoort | Aluminiumoxide                            |
| Bestrooiing | dicht bestrooid                           |

- Dicht bestrooid aluminiumoxide voor hoge materiaalverwijdering
- Flexibel katoenweefsel voor optimale aanpassing aan het werkstuk
- Gewoon met de hand op de gewenste lengte maken

Spaarrol met kunststof kern om eenvoudig af te rollen.
